Objective

Dedicated and detail-oriented professional with a strong background in design, coding, testing, bug fixing, documentation, and technical support. Proven track record of on-time delivery while maintaining high-quality standards and productivity goals. Seeking a challenging position to contribute expertise in Development and enhance technical capabilities through continuous learning.

Work Experience

Web Developer Oasis Infobyte (Intern) - 01/10/2023 – 01/11/2023

At Oasis Infobyte, I gained valuable experience as a web developer during my internship. My proficiency in HTML5, CSS3, and JavaScript allowed me to create highly interactive and visually engaging web applications, leveraging my strong foundation in these technologies to produce exceptional user experiences.

Projects

Food Delivery App ([Github Link](#))

- I have created a food ordering website/app using a modern tech stack that includes React JS, MongoDB, Express, Node JS, and Stripe payment gateway.
- This Full Stack Food Delivery app project encompasses three main components: the Frontend website, an Admin Panel, and a Backend server.

Responsive College Website ([Github Link](#))

- Developed a responsive and dynamic user interface using ReactJS to ensure an engaging and seamless user experience.
- **React Smooth Scroll:** Integrated React Smooth Scroll for a polished and smooth navigation experience within the website.
- **React Slider Component:** Implemented a dynamic slider component to showcase relevant content or images effectively.
- **Tech Stack:-** ReactJS, JavaScript, Media Queries.

Amazon Clone ([Github Link](#))

- Developed a web-based Amazon Clone Website.
- Sole front-end developer responsible for implementing responsive design and user interface enhancements.
- **Tech Stack:-** HTML5, CSS3, JavaScript.
